- SIZE 5" (130MM)
- QUICK MOUNT
- SHOCK-RESISTANT HOUSING
- HIGH EFFICIENCY
- EXCELLENT SOUND QUALITY

OVERVIEW

The SPCF-06W-50 is a 6W 100V flush mount ceiling loudspeaker, which has a 5" (130mm) full-range chassis providing excellent sound quality with speech and background music. The speaker is fitted with a 100V transformer which has three power adjustment tapings of 6W, 3W, and 1.5W.

The SPCF-06W-65 has a powder coated metal chassis and grille, with the high quality finish giving good long-term protection and resistance to corrosion. As standard the speaker is coloured to match RAL9010 'Pure White', however the speakers can be supplied in any four-digit RAL or NCS colour, as a special order.

Quick and easy ceiling mounting is provided through the use of spring clamps, with a possible ceiling thickness of between 2mm and 45mm. The 100V loudspeaker line cabling is connected by means of a simple and quick two-pin push-clamp.

Please note that although very thin ceilings can be used as a mounting surface, it should be ensured that the ceiling thickness and strength are appropriate to the weight of the speaker, and to the thickness and weight of the 100V line cable.

This loudspeaker is optionally available with a DC blocking capacitor fitted, in order to provide compatibility with DC loudspeaker line monitoring systems. The part number for this DC monitoring compatible version is SPCF-06W-50-DC.

EASE data is available for this speaker on request.
